

Rajd around the World

**A very successful 2022 ending and a new exciting
2023 starting!**

NEWSFLASH, PITEÅ, JANUARY 2023

Rajd Systech AB develops, markets and delivers Safety Solutions for Proving Ground Management to the global automotive testing industry. Delivering both standard solutions as well as customized solutions specifically tailored for individual Proving Grounds our solution can be used by all Proving and Testing Grounds around the world.

The Rajd Proving Ground Management and Safety Solution (Rajd PGM) incorporates Safety with a Business Tool ensuring optimal flow embracing all aspects within the business chain. For further information visit www.rajdsystech.se.

New clients, markets and segments have taken us around the world. During 2022 Rajd Systech AB have installed the RPGM Solution at 3 new Proving Grounds, closed deals for deliveries on the African continent and successfully visited beautiful California where we will now start planning for our second Proving Ground Installation.

Our brand new software version lifts the RPGM Solution to even higher levels within primarily Safety and ease of use. Just a few of our new cool Safety features.

- RTK Precision
- Integrated Voice function in RMU
 - Languages
 - Lap counts
- New Report System
- Situation and Emergency Plans
- MC Solution

As always, we work together with our clients in the development of functionality to ensure we offer what our clients and markets require. If you wish to learn more kindly contact us for an individual Teams demo and/or visit on site!
